

Customized Enclosure Solutions

Sapien lockable controller cabinets are robust, customized enclosures designed to match project requirements. Built to last and maintain a professional appearance while keeping controller and components safe from weather elements, vandalism and pests. Available in plastic or stainless steel model options.

Plastic Wall Mount Front Entry Cabinet

The economical solution for jobs requiring a strong, lockable (lock and key not included) enclosure to house the Sapien controller. Mounting plate and hardware included.

Dimensions (H x W x D): 11.5" x 9.25" x 5.5"
(29,3 cm x 23,5 cm x 14 cm)

Stainless Steel Wall Mount Front Entry Cabinet

Ultimate durability creates an ideal heavy-duty commercial controller package. Built-in lock/key included. Controller/transformer mounting hardware included.

Dimensions (H x W x D): 15.25" x 12.75" x 4.75"
(38,7 cm x 32,4 cm x 12,1cm)

Stainless Steel Top-Entry Pedestal Cabinet

For installations that do not call for wall mounting, this sturdy, stainless pedestal stands up to vandals and harsh environments. Factory assembled, includes removable front door for easy controller installation and access to other components.

Dimensions (H x W x D): 39" x 16.5" x 17.5"
(99,06 cm x 41,91 cm x 44,45 cm)
